**May 11, 2023**

### **MEDICAL NOTICE TO CAMP ATTENDEES (2023)**

Attendees of the BC Conference annual camp meeting, need to bring their own medications and medical supplies, durable medical equipment (e.g., walkers), wound dressings, oxygen concentrators and/or any other equipment or supplies that may be needed for chronic care.

The camp Healthcare Providers (HCP) and the first-aid clinic do not deal with chronic problems. They are available to assist only in acute and immediate first aid care.

Camp Hope does not provide personal care support. Residents of the lodge and campers need to provide their own care aides. Camp meeting attendees need to be responsible for all chronic medical conditions of any member of their camping group.

If the chronic medical needs of a camp attendee are not met by the resources brought from home and/or the need for care exceeds that which a family member or attendant can provide, then it may be necessary for the camper to return to his/her home at the earliest opportunity.

Thank you for your kind understanding.
